

Sponsor Networking Web Application

Nathan Zhu, Charles Luo, Raghav Chetal, Luke Cheng

Hi, I'm James.

[matching algorithm]

James, meet Nathan.

The Present

The Present

Sponsor Network

- Pairwise-matching algorithm that prioritizes most important information (timezone) in determining best fit
- Functionality to match mentors and mentees, so they can join a one-to-one conversation
- A fully-functional database that is scalable for 140TB of profiles
- Forum to answer common questions and reduce load on mentors

The Future

The Future

Sponsor Network

- Accurate, scalable algorithm that can be incrementally improved with more search criteria
 - Enhanced matchmaking features
 - Forums to foster a global community of sponsors
 - Stable back-end database that can support significantly increased traffic
-

Thank you.
